

OUTSOURCING. WEB DEVELOPMENT. SALES SERVICES.

OUTSTAFFING

We provide agile teams that will join your ongoing project at any stage. Our engineers are flexible and trained to join seamlessly the existing team.

WEB AND MOBILE DEVELOPMENT

We do product development from concept to finished products—and every step in between. We assign qualified project managers that will make sure your request is shipped in time.

SALES SERVICES

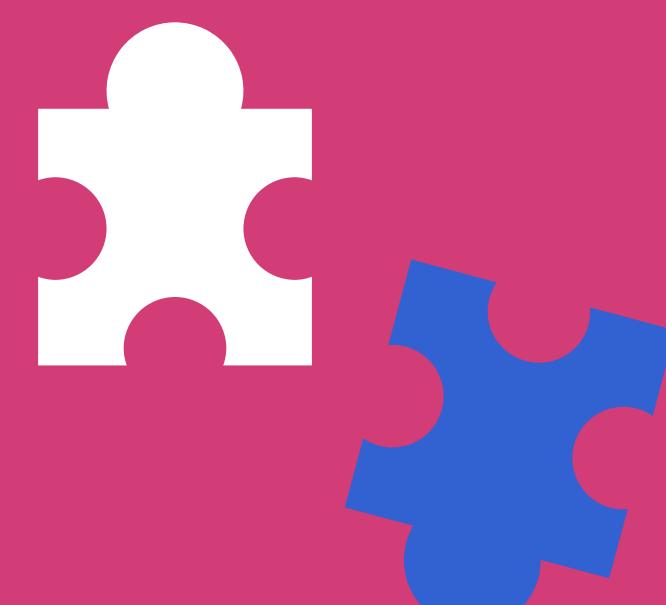

We assist startups with sales force and help in identifying untapped market possibilities. We focus on B2B sales development within the European markets.

“Clients fundamentally want great solutions and the certainty that it will accelerate their business, and it is our goal with Finhub to deliver on both superbly.”

DORIAN BUJOR
CO-FOUNDER,
FINHUB SCALING SOLUTIONS

For your trickiest IT and sales challenges, please contact us for a preliminary discussion.

DEVOUT RESOURCING

RETHINK OUTSOURCING

The demand for talent is constantly increasing, making it more and more difficult to scale in headcount. It forces companies to work with limited resources, leaving customer satisfaction behind.

Generic outsourcing companies focus on delivering as many projects as possible using the resources they have.

It hurts both employee and customer satisfaction.

At Finhub, [we are not hurrying](#) to increase the number of projects—having to stress our employees by asking them to switch assignments.

DEDICATED TEAMS

Working with us, you can be sure the team joining your project won't leave it until the job is done.

It is essential in making the projects we work on successful.

We are not here to grow our business; we are here to **grow yours.**

“Our priority is building strong, long-term partnerships with every client.”
